Melamine Product Specification - LX

Grade	Premium grade
Appearance	White Powder
Content (sublimation)	99.8% min
Moisture content (%)	0.1% max
Color (Pt-Co) degree	20 max
Kaolin turbidity degree	20 max
PH	7.5 – 9.5
Density	700-900kg/m ³
Melting Point (° C)	354
Ash content (%)	0.03% max

The information provided herein is intended to assist our customers in determining whether the proposed products are suitable for their applications. We insist that customers inspect and test our products before use and satisfy themselves as to their contents and suitability. Before using the product, we request that the customer read its label. The information compiled is considered dependable and accurate to the best of our knowledge.

Neither InterAtlas nor the Producer does assume any liability for its use, misuse or reliance on the information supplied. Nothing contained herein shall constitute a warranty, express or implied, including but not limited to any information relating to fitness of the product and / or its merchantability. We assume no liability for injury to the intended recipient and / or third persons as a result of any damage caused to person and / or property as a result of the use, misuse or other factors resulting in alleged damage and the intended recipient assumes all such risks. The exclusive remedy for all proven claims is replacement of our product. PLEASE REFER TO THE APPROPRIATE MSDS RELATING TO TRANSPORTATION AND HEALTH AND SAFETY ASPECTS.
